

The Keck Institute for Space Studies
presents a short course on:

Data Driven Approaches to Searches for Technosignatures

Monday, May 20, 2019

8:15 A.M. Coffee

8:45 A.M. - 12:30 P.M. Short Course

Hameetman Auditorium
Cahill Center

California Institute of Technology

Prof. Jason Wright - Penn State

Extrasolar Planets, Life, and Technosignatures

Prof. George Djorgovski - Caltech

The Astronomy Data Landscape
and Observable Parameter Spaces

Dr. Kiri Wagstaff - JPL

Detecting the Unexpected:
An Introduction to Anomaly Detection Methods

Prof. Matthew Graham - Caltech

An Introduction to Time Series Analysis
