

The Keck Institute for Space Studies
presents a short course on:

Quantifying Emissions through Greenhouse Gases and Transport

Monday, October 7, 2024

8:15 A.M. Coffee

8:45 A.M. - 12:30 P.M. Short Course

Chen 100 Lecture Hall

**Chen Neuroscience Research Building
California Institute of Technology**

Anna Michalak - Carnegie Institute for Science

Estimating Fluxes in the Carbon Cycle

Derek Posselt - JPL

Observing Meteorology Across Scales

Kenneth Davis - Pennsylvania State University

Plot to continent: Reflections from studying
the terrestrial carbon cycle at multiple scales

Junjie Liu - JPL

Maximizing the role of atmospheric CO₂ observations
in shaping carbon cycle science and carbon-climate policy

**for more information
go to:
www.kiss.caltech.edu**

No registration is required for this short course.
Seating is limited and is available on a first come, first served basis.
An informal lunch is provided for all attendees.
