

The Keck Institute for Space Studies presents a short course on:

Hybrid Space-Ground Observatories: Revolutionizing the Search for Earth-Like Exoplanets

Monday, October 20, 2025 8:15 A.M. Coffee 8:45 A.M. - 12:30 P.M. Short Course

Chen 100 Lecture Hall
Chen Neuroscience Research Building
California Institute of Technology

John Mather - NASA Goddard Space Flight Center
Hybrid Space-Ground Observatories

Sara Seager - MIT
Exoplanet Science and Discoveries

Stuart Shaklan - JPL Starshade

John O'Meara - W.M. Keck Observatory
Extremely Large Telescopes

Markus Kasper - European Southern Observatory
Adaptive Optics and Extreme AO

Eliad Peretz - NASA Goddard Space Flight Center
Orbital Dynamics

No registration is required for this short course.

Seating is limited and is available on a first come, first served basis.

An informal lunch is provided for all attendees.
